Documentation Options (Continued)			
Bank Statement	1yr or 2yrs.	•	If business bank statements are provided, (including personal bank statements used as a business account), use a maximum of 50%* of the deposits as qualifying income. The qualifying income will be further reduced by multiplying the deposits by the percentage of ownership by the applicant(s). The minimum allowable percentage of ownership is 25% per applicant utilizing the account.
		•	When utilizing the 24-month variant of this program with declining income, the lessor of the last 24-months or 12-month documented period will be used for qualifying. * A business expense haircut under 50% may be considered by Underwriter when validated by (i) a CPA Letter that directly states the experienced overhead for Applicant’s business AND (ii) Underwriter, in their sole discretion, finds that ratio to be consistent with the Applicant’s industry. However, in no instance would a ratio of less than a 25% overhead factor to business statements will be considered.
		•	A personal account with multiple owners listed at any point in the qualifying timeline of utilized statements must all be on the loan application regardless of individual contributions to the deposits / qualifying income. Limited case-by-case exceptions for account holders to not be on the loan are account holders listed as “Payable On Death” or similar “in trust” (not to be confused with a Trust Account) designations for successor ownership. A business account with multiple owners on the statement does not require all owners to be applicants for the loan.
		•	If personal statements are provided, 100% of the deposits will be used as qualifying income. If it is determined that the personal bank statements are being used as a business account for a sole proprietor business type, then we will treat as a business account and a maximum of 50%* of the deposits will be used as qualifying income. Underwriters should take care to consider the type of business and appropriate haircut to deposits when in their discretion the business has a limited overhead (i.e.: a 1099 employee).
		•	An LOE from the borrower is required explaining their business name, what their business does, the number of employees, how it is set up (Incorporated, LLC, Sole Proprietor, etcetera), and what they consider their income to be on a monthly basis. If the information for the above items is already located in another part of the file, the LOE does not need to explicitly confirm it.
DSCR		•	May use the higher of actual or market rents: Difference between the two may not exceed 10% with a maximum of \$300.
		•	Where actual rents exceed market rents, must be documented via lease and 2 months proof of rent receipt
		•	If a vacant property is being purchased, qualifying rents are taken from the 1007 or 1025 Appraisal report, as applicable, for qualifying income.
		•	Short term rentals with 12-month ledgers from condotel management companies, property managers, AirBnB, VRBO, etcetera as documentation for actual rents are acceptable.
		•	At least one borrower/guarantor on the loan must attest on the application that they are not a first-time homebuyer.
Full Doc	1yr or 2yrs.	•	No documentation submitted should have a social security number. Only ITIN numbers allowed to reflect on documents.
		•	ITINs may utilize a written VOE dated within 30 days of funding in lieu of a paystub and W-2s / tax returns, and most recent bank statement that includes ACH / Direct Deposit of payroll as validation to the written VOE.
		•	Written VOE completed in full by employer (Verbal verification of VOE also required) verifying most recent one or two years and current YTD earnings on a current pay stub OR
